

WMRHS SPECIAL ANNOUNCEMENT-Page 1

11 / 30 / 2016

TO THE MEMBERSHIP and anyone desiring to order a HO BOWSER RS3 in WM Speedlettering paint:

We now have the opportunity to sell Bowser engines. Bowser's latest announcement is the Executive Line HO Alco RS3 Phase III engines in 15 Different road names. They are doing the Western Maryland Railway in 2 numbers for general public sales, #195 and #196 with and without sound all in **Speedlettering**. All sound units will be equipped with ESU LocSound Select decoders.

These are new molded bodies & cabs with new motors, railings, correct horns and angled number boards.

The society will have exclusive rights to one HO engine, #198 with and without sound in Speedlettering. This numbered engine will **only be available from WMRHS**. The profits will go to fixing the roof on the museum building.

There will be a \$100.00 non-refundable deposit required per engine ordered. If for any reason HO engine #198 is canceled, all monies will be refunded. Final payment is due on units' arrival and at that time you will be notified for the balance due including shipping charges. There will only be enough #198 number engines to fill our orders. **No** overruns.

Ordering deadline is 5/1/2017. If all goes well, engines should arrive by December 2017.

TO THE MEMBERSHIP and anyone desiring to order a **HO BOWSER RS3** in WM Speedlettering paint:

Please print out this page and use it to order your new **HO RS3** engine(s) that BOWSER is doing in Western Maryland Speedlettering paint and should arrive by December 2017.

NEW info on the **HO RS3** engines, the extra tall smoke stack on the regular smoke stack will be a separate piece for the owner to install.

Lee English told me that they are working on having the angled number boards light up. Now that's going to be cool if it's done.

Ordering deadline to WMRHS is 5/1/2017. We need 40 orders of **HO** engine # 198 to make this happen.
